1005

**CONCENTRATED INDUSTRIAL
CLEANER & DEGREASER**

**BIODEGRADABLE
NON-TOXIC NON-FLAMMABLE**

1005 is safer than toxic solvent degreasers. 1005's concentrated, highly dilutable formula produces a extremely effective all purpose cleaner, degreaser steam pressure soap for industrial, institutional, household and recreational use.

DIRECTIONS:

1005 can be applied by mop, sponge, coarse spray, pressure washer or steam cleaner. 1005 is concentrated, with dilution ratios up to 256/1 with cold, warm, hard, fresh or salt water. Cleaning jobs and chemical dilutions' may vary for different applications. First try a high dilution then decrease dilution only as needed. When cleaning heavy grease or soil allow cleaning solution to remain and penetrate grime for several minutes, or scrub with stiff brush. Rinse or pressure rinse surface with clean water. Glass surfaces should be wiped dry with a clean cloth.

SUGGESTED DILUTION RATIOS ARE:

EXTRA HEAVY DUTY DEGREASING: 4:1 to 4 parts water to 1 part H 1005. Engines, machinery, smoke exhaust hoods and ovens.

HEAVY DUTY CLEANING: 10:1 to 10 parts water to 1 part H 1005. General USDA Tables, Floors, Walls, Kitchen cleaning, deep fryers and concrete floor mopping.

GENERAL CLEANING AND LIGHT DEGREASING: 32:1 to 4 oz. H 1005 to 1 gal. water. Floor scrubbers and spray and wipe.

STEAM AND PRESSURE WASH: 60:1 Metered through washer or chemical proportioner.

LIGHT DUTY CLEANING AND SPOT CLEANING: 64:1 2 oz. H 1005 to 1 gal water.
