

HERTRON STONE SYSTEMS

All Off

PENETRATING CLEANER

REMOVES OIL, GREASE, WAXES
AND SOAP FILM. RINSES WITH WATER

DESCRIPTION: *All-Off* is especially formulated to remove old wax, dirt, grease, oil and soap film from ceramic and quarry tile, terrazzo, granite, slate, porcelain, enamel, concrete and other masonry surfaces. *All-Off* is extremely effective for removal of soap film and mildew stains from ceramic shower enclosures.

Not for use on resilient tile. Contains no water.

DIRECTIONS: *All-Off* is used full strength.

For best results, work on no more than 100 square feet at a time. Apply to surface and scrub with a stiff natural bristle brush or nylon abrasive pad.

Add a small amount of water and scrub again.

Mop up residue and rinse with clear water.

If a second treatment is required for heavily encrusted areas, reapply *All-Off* full strength to a dry surface and repeat the above process.
