ALPHA SEAL

TRANSPARENT IMPREGNATOR

FOR ALL STONE SURFACES

**OIL & WATER REPELLENT
SELF CURING
RESISTS STAINS
NON-YELLOWING
INCREASES SLIP RESISTANCE**

Alpha-Seal is a transparent, breathable, impregnating, water and oil resistant treatment for use on ceramic tile, marble, terrazzo, granite, grout joints and cement surfaces to protect against water damage and stains.

DIRECTIONS:

Only apply to a clean, dry surface using cloth, sponge mop or low pressure spray. Allow to penetrate. If second application is required, apply when gloss leaves surface. Do not allow to pool. May be buffed with nylon pad after 24 hours. Coverage may vary from 80 to 800 sq. ft. per gallon coverage, depending on surface.

CAUTION: COMBUSTIBLE LIQUID

Contains petroleum distillates. Keep away from open flames or sparks. Keep container closed when not in use. Avoid contact with skin and eyes, or breathing of vapors. For skin contact, wash with soap and water. For eye contact, flush with water for 15 minutes. If irritation persists, call physician. If taken internally, do not induce vomiting. Call physician immediately.

**CAUTION: COMBUSTIBLE LIQUID
KEEP OUT OF REACH OF CHILDREN**
