Granite

Ultimate Black

This product will produce a rich color and deep luster to any color granite floor.

DESCRIPTION: ULTIMATE BLACK & MAINTENANCE is a polishing compound that can be used on any color granite to produce a deep beautiful finish. Easy to apply, can be used with regular steel wool pads. Use to produce final polish after diamond cutting or after using ONE STEP for the ultimate black on black granite.

DIRECTIONS:

1. Apply 1 oz. of ULTIMATE BLACK & MAINTENANCE Polishing compound to polish 12 to 18 square feet of granite.
2. Buff with a regular steel wool pad(grade #1 or #2) on a slow speed machine (175 to 300 RPM) until completely dry and smearing has disappeared. Do not allow product to cake on surface of pad. There may be need to repeat once or twice depending on initial condition of floor surface. After desired finish is achieved, move to next area.
3. To remove any swirls or polish left on the floor, buff area floor with a new steel wool pad on
