NEUTRAL DETERGENT

**FOR MARBLE, TERRAZZO,
TILE & GROUT JOINTS**

DESCRIPTION: *Neutral Detergent* is an absolutely neutral cleaner which does not leave a calcium film but contains an optical brightener to emphasize surface colors. It may be used equally well for cleaning any surface that would not be damaged by water.

DIRECTIONS: Use 2oz. of *Neutral Detergent* to a gallon of water. Mop or scrub as much area as will remain wet. Rinse well with clean water and mop dry. Used full strength on new construction floors, *Neutral Detergent* will prevent undue sticking of spackling, paint or similar materials.
